

Legally we're prohibited from making exaggerated claims about the potency of the microorganisms in this bag.

Therefore legally we wouldn't tell you that after Laverne from Chippewa Falls fed his garden soil this he grew such a bumper crop of cucumbers that it overwhelmed the ladies at the St. Agnes annual pickle festival.

Legally, we just can't say stuff like that - cause that would be wrong, you know.?

Purple Cow Organics + soil + water = all you need.

CHANGING THE EARTH ONE BAG AT A TIME™
